

# Swansea and District Table Tennis League

Colleagues,

The Management Committee and I are monitoring the Coronavirus (COVID 19) situation as promised.

The latest information suggest that it is likely that all persons aged 70 or over (and maybe those with underlying health problems) will be asked to voluntarily isolate themselves from the spread of the virus by staying at home.

Whilst this has not yet been implemented its seems it is 'on the cards'. If this is the case, it will affect our game significantly.

With this in mind, the Management Committee has recognised that it is safer for us to terminate the League Season for 2019/20 forthwith for all Divisions.

The Members of the Committee will continue to communicate with each other in order to determine the best way to award points for the outstanding matches. Upon agreement a final 'table' will be issued and winners and runners up announced.

Whilst it is a 'long way off', at present, we will also keep a close watch on the Date for our AGM in June of 2020. At this time, and looking at the time frame for other countries dealing with this virus (specifically China), there is currently no certainty that it will be over by then.

May I and the Committee, thank you all for participating in the League this Season and wish you all a safe time over the next few months. I hope we can all meet in better circumstances in the near future.

Stan Eastwood,  
Chairman,  
Swansea and District Table Tennis League.
